

## **Nisha Chande, MD**

Psychiatrist

Dr. Chande is a Diplomate of the American Board of Psychiatry and Neurology and has been serving as a KSU psychiatrist since 2010. She attended Mercer University School of Medicine and completed her psychiatry residency training at Emory University Department of Psychiatry and Behavioral Sciences. She provides evaluation and medication management for adults with depression, anxiety, obsessive compulsive disorder, bipolar disorder, trauma, eating disorders, substance abuse, and psychosis. She also has experience working with students with gender dysphoria and autism.

She works closely with our counseling staff and recognizes that counseling along with medication management result in the best treatment results. Her personal interests include mental and physical wellness, reading, and quiet time.
